Our Dear Rahul,

For some time now, A\*\*\*\* and I have been meaning to put our thoughts to words and thank you for the incredible task you've accomplished in such a short amount of time. Not only has A\*\*\*\*'s math marks improved, she has actually found a way to understand it, and enjoys completing the work when she does. We both know the effort it took on her part to complete her work, however, it must be said that without your guidance, patience, and dedication, her success would not have been possible.

A\*\*\*\* has always taken on many responsibilities, always wanting to try new things so prioritizing had always been her challenge. In short, the two and a half months of Thursday evening sessions with you, has not only helped her excel in math but, she has – with your help at Sapphire Studies - gained the confidence and ability to easily multitask without feeling overwhelmed. To say that a teenager's life these days is difficult is putting it mildly, but with you beside her, the day to day hurdles seemed much easier for her to overcome. You truly were the catalyst she needed to succeed, and we, as a family, can't thank you enough.

Rahul, both A\*\*\*\* and I want you to know how thankful we are for your support and ability to “zero in” on what she needed most – the confidence you instilled in her ability to progress through your “first principles” method to homework completion is second to none. I've always felt that A\*\*\*\* had it in her, and from the bottom of my heart, want to thank you for making her shine. The work you do with our young people is remarkable, don't ever change course, and God always bless you and Sapphire Studies.

Many thanks,

**Anna and A\*\*\*\*.**
