Letter of Reference – Our Experience with Sapphire Studies

To whom it may concern,

Rahul has tutored Judah for the last 5 months with great success.

We chose Rahul because he establishes a professional and productive learning relationship with his students. Sessions with Rahul are focused and kind.

He is patient and observant, realizing readiness and helping students overcome fears and previous defeating experiences.

After a few months of work with Rahul, our son will be returning back to school we believe with a sense that he is well prepared in mathematics. He will be much more confident to take his maths tests and exams.

We highly recommend that parents consider enrichment tutoring with Rahul to fill in the learning gaps that naturally occur in today's public schools. It is just impossible for a teacher with dozens of students to provide the mentoring that Rahul can provide.

We will continue to use Rahul's enrichment tutoring services. We are convinced that the extra hours a week are deepening our Judah's study skills, confidence in asking for and receiving help, and academic mastery.

Sincerely,
Janine
